- Station 3 Storage Room – Commissioner Ward stated nothing has been done yet.
- Station 2 Brick Pointing – Commissioner Ward stated this is in process, but they may see something at the next meeting.
- Physicals status update – Commissioner Sassi stated that this is a work in progress, but there is nothing to report at this time.
- ESO Reporting status update – Deputy Chief Champion said he is learning the ins and outs of the new program, and they are progressing forward.
- Grant update – Deputy Chief Champion said he had a meeting this week with FEMA. The money was distributed appropriately, and they are waiting for the compilation of data for Mr. Silverman. They need to get invoices for Manpower as well to get it to Mr. Dabney. Chairman Komorsky asked if there was a deadline for this and Deputy Chief Champion said he did not believe so. He also met with a different FEMA representative today on a potential reimbursement for the storm response. FEMA is looking at the mutual aid agreement and has to do their due diligence before they can give the determination. Nothing has been submitted to them yet other than the initial paperwork stating that LaGrange is interested in trying to get reimbursement. Chief O'Connor stated, in order to go through the other municipalities, of which some are volunteers, that it would require those volunteer agencies to file for a grant and there is nothing those agencies would get from the grant other than transferring money to LaGrange. So now LaGrange is looking to see if they can file for that labor reimbursement on their own. If they can do that, it is probably worth following through on the rest. If they cannot file on their own and have to go through trying to get other agencies to file for grants, it is probably not even worth going after. They do have all of the records compiled for their information. Chairperson Komorsky asked if there were any state funds available in this type of situation and District Chief O'Connor stated the law says a home agency has to apply for reimbursement. Any aid received has to be submitted through that. Now they are waiting to hear back from FEMA. Arlington Fire District is also waiting to hear from FEMA on this matter.
- Station 2 Meeting Room Videoconferencing system – Deputy Chief Champion stated Jeff Lenkowski, from Salesmsys, is facilitating the installation of a second ceiling-mounted projector and screen for \$3,456.00 because the old projector recently burned out. He said an RFP still needs to be put together to address the remaining issues for the upgrade to an audio digital system and communication between Station 1 and Station 2. Chairman Komorsky asked what happened to the other vendor that came in. Deputy Chief Champion stated he presented a conceptual proposal, but it has to be transformed into more detailed specifications and that has not been done yet. EMS Administrator Benenati stated that vendor gives information towards developing a spec. Since then, the projector that has been in use has burned out. The Deputy Chief is proposing a temporary replacement of the video portion of that so the Board will have something for the meetings. He is not addressing the audio component of that. That will be the additional work that will need to continue. This is an interim solution for the system that is in place tonight. Chairman Komorsky asked EMS Administrator Benenati what the timeline would be on getting something completed. EMS Administrator Benenati stated it would depend on how quickly they get their things done, but at this point it is on the back burner. Commissioner Pignataro stated Mr. Lenkowski came to the Board with information and was going to come back with a

proposal. Deputy Chief Champion stated Jeff was going to reach out to Blue Dragon, the company that did the cameras, to come up with a proposal for audio, room camera, digital mics, and the removal of the analog system. Deputy Chief Champion said he is going to reach out to Hudson Valley AV again and Hughes, on Vassar Road, to get their recommendations.

- Diesel Tank Accessories – Deputy Chief Champion stated that he has followed up with the vendor about putting in the bollards and that he has not heard from New York State about PBS registration. He is also waiting to hear back from Vasco about the removal of the red waste oil tank. They are working on a process for creating quarterly PBA Inspections for the staff to do quarterly. That will meet DEC's requirements. Chairman Komorsky asked what should be done if there is an inspection right now. Deputy Chief Champion stated DEC should be aware of the status of the paperwork in the process they looked at and he would let them know they are in the process of getting additional bollards and additional containment put in.
- HIPAA Compliance – Deputy Chief Champion said this is pending the group review.
- Building Repairs/Repair Requests – there were none.

NEW BUSINESS: -

Out of County Training Requests

DC Champion stated there is a Fire Instructor I class in Montour Falls from 12/11 – 12/15 and Firefighter Zaluski would like permission to attend. He said the costs would include overtime and use of a district vehicle.

Upon a MOTION made by Commissioner Pignataro and SECONDED by Commissioner Burns, the Board RESOLVED to approve Firefighter Zaluski's attendance from December 11 through December 15, 2023, in Montour Falls for Fire Instructor I. Burns – Aye, Pignataro – Aye, Sassi – Aye, Ward – Aye, Komorsky - Aye.

Motion Carried.

NYS Volunteer Firefighter Cancer Benefit – Proposal for Coverage

Chairman Komorsky stated they have done this every year for several years. He asked if there were questions or comments from the Board and there were none.

Upon a MOTION made by Commissioner Pignataro and SECONDED by Commissioner Burns, the Board RESOLVED to accept the Proposal for Coverage for the Enhanced Plan (proposal attached). Burns – Aye, Pignataro – Aye, Sassi – Aye, Ward – Aye, Komorsky - Aye. **Motion Carried.**

REPORTS: (by officers present)

- **Treasurer Mark Pozniak** – (no report)

- **Chief Tim O'Connor**

AWARD – Chief O'Connor notified the Board that EMS Administrator Michael Benenati received an award - the New York State Commissioner of Health Award for Excellence - at the Vital Signs Conference.

EXECUTIVE – One personnel item for Executive Session.

- **EMS Administrator Michael Benenati**

UPDATES – EMS Administrator Michael Benenati reported that they are working on renewing the controlled substance agreement with Mid Hudson Regional Medical Center. The current agreement expires on November 30, 2023. It is a slow process and there have been no issues. They are switching from four sets of advanced life support gear to five, so it will cost a little more. He will bring the pricing to the Board when they are ready for approval. Brendan Whalen's CME packet is completed and submitted to NYS. Tyler Edgar has been approved to work as a paramedic effective October 19, 2023. They have changed the controlled substance agent from Tom Martell to Scott Merritt and the Chairman will need to sign that paperwork. An ALS class was held on October 13th and a PALS class is scheduled on October 27th, both are in conjunction with the Arlington Fire District. EMS Administrator Benenati is working on the paramedic core class in the Fall with AFD as well as on the EMS conferences. They have been working on updating the CME notebooks. He has been working with the District Chief on the PALS cards. They are working on getting information out and back from people about the Dutchess County Community College EMS Connections conference in November and the Ulster County EMS conference. He said he needs authorization to attend the HV Regional Medical Advisory Committee meeting on Monday, November 6 at the regional office in Newburgh.

Upon a MOTION made by Commissioner Pignataro and SECONDED by Commissioner Ward, the Board RESOLVED to allow EMS Administrator Benenati to attend the Hudson Valley Regional Medical Advisory Committee meeting on Monday, November 6th at the regional office in Newburgh. Sassi – Aye, Pignataro – Aye, Burns – Aye, Ward – Aye, Komorsky - Aye. **Motion Carried.**

Commissioner Sassi asked if there was a timeline when the quarterly meetings were going to happen with the staff that are not immediately due. EMS Administrator Benenati stated they have been happening. He stated he is doing everything in date order. There is a lot of information from EMS week that needs to be entered. The next batch of people expire at the end of June, so he is working one hundred percent of the time to get the CME information straightened out. It is an ongoing process. Commissioner Sassi asked if the MOU states they have to meet with everyone on a quarterly basis, when was that timeline going to start. EMS Administrator Benenati stated there is no specific timeline as he has never had to do it that way before. It seems like it is a full-

time task, and it seems as soon as he is done with the 35 people on staff, it will be time to restart the process again.

- **Deputy Chief Anthony Champion**

Updates - Deputy Chief Champion stated he has obtained academy lodging for the training going on in Montour Falls. The cost will be \$105 for the entire stay. Since the last meeting, the Board has received a notification from the lieutenant about the status of the rigs. 47-71 will be picked up by VCI on Thursday to address electrical issues and doorstep issues that have been ongoing. 47-74 has a new module being ordered for the locking mechanism. The one that is there was malfunctioning and is no longer manufactured. 47-31 had an issue with the exhaust due to a pipe being separated and a fan issue. That part will be replaced. There is an ongoing process with the Chief regarding reviewing all of the work that he does. There were a couple of accidents the previous day that the Board has been informed about. As of right now, the items will be sent to the Safety Committee to be investigated and reviewed and they will be discussed with the individuals involved. One incident was with 47-89 on Taconic being used for blocking personnel. The vehicle was struck from behind and there are minor damages to the vehicle. They do have a plan of correction for this. Commissioner Pignataro asked if anyone was close to this incident and the Deputy Chief said no. Commissioner Pignataro stated it is good to see the training on vehicle positioning working. Deputy Chief Champion stated the second incident was 47-13 returning to the Station and struck the building edging while backing in. It looks as though the rubber rail on the outside of the building can be reattached with some additional wiring to the light that is installed in it. There is no damage to 13. It does look like there was a prior dimpling incident on the bumper that was not reported so he is not sure when that may have happened. Commissioner Pignataro stated there was a backing incident a year ago and there was supposed to be additional training and spotters in place. He asked if the members involved were present at that additional training. The Deputy Chief stated, to his knowledge, all the staff were at the training and informed to use spotters. The individuals involved have been spoken to and understand the ramifications of lack of judgment. This will go to the Safety Committee for review, and they will speak with the individuals again. They will also review the importance of having spotters with everyone. The Board will be informed of the outcome. Commissioner Pignataro asked when they would expect that. The Deputy Chief said it could be a week or two.

Executive – Deputy Chief Champion has four personnel matters for Executive Session.

Specs for Tahoe Customizations – Deputy Chief Champion stated the specs have been uploaded for the Board's review in Teams. Once the Board's approval is granted, he would like to move forward with the advertisements. The Comptroller has reviewed it and has no issues with it.

- **Department** – Chairman Komorsky stated he spoke with Bob McCourt, and he said to say hi to everyone.
- **Union** – no report.
